

Care for the Caregiver

Whether it is raising children, taking care of a sick relative or helping seriously ill or dying strangers, you are constantly dipping into your spiritual bucket. And, as with any bucket, if you don't find ways to re-fill it, you end up with an empty bucket.

At Fulfilling Connections, we have created a day long workshop/retreat to help you recharge your emotional batteries, refill your spirit, revitalize your passions, and restore your lust for living.

It is truly by finding your own path through the labyrinth of life that you can help others find theirs.

Workshop limited to 16 participants.
